Human Rights (University Casebook Series)
**Synopsis**

This casebook provides a comprehensive, accessible, and up-to-date analysis of international human rights law. It emphasizes the relationship between the international, regional, and national legal systems (with a particular focus on the United States), features an intellectual and historical development of the idea of human rights, and analyzes recent developments in areas including corporate responsibility, terrorism and human rights, the rights of refugees, international criminal law, and the role of NGOs. The first edition has been comprehensively revised and updated to address important and "hot button" issues and topics in international human rights law. These include: an introductory case study on human rights, extraordinary renditions and extraterritoriality, extensive coverage of regional human rights systems and NGOs, terrorism and human rights litigation in U.S. courts, corporations and human rights, refugee law, the right to health, etc.

**Customer Reviews**

Most of the cases are heavily edited, which I really appreciate! The major problem is that it is still a giant book, but I can't help but wonder how big it would be if the cases weren't so edited. As it stands, it is almost impossible to cart around and bring to class. They should definitely try to get it down a bit more or split it into more than one volume.

I bought the book used. It was in very good conditions. The book is a very good one, I am using it for
one of my classes and it's such a source of thoughtful discourses!

I rented this book for class. It is insightful and it gives an updated view of the HR status in the world. Thinking about buying it.

Great book for those who have an interest in human rights law.
