Customer Reviews

This book contains most of what you need for legal terms. Besides, who really needs to have their own copy of every legal term out there? Any library or firm you will ever study or work at will have the big version. All you need is a smaller one to carry around with you. And Black's still is the best.

Although it is cheap, there's not very much in it. I was disappointed not to find any of the terms I needed reading cases for my first week of class. Spend the money and buy the regular 8th edition.

This is a wonderful book. It is great to have and helpful in my criminal justice and law classes. I would recommend to a friend

Excellent and concise. Perfect for carrying and as a companion to any law text you may be reading.

As far as any dictionary is concerned, this one is a bit short. If you work in the legal field, you probably know most terms included in it. If you are beginning or do not work with Law, this may be helpful.
