## Customer Reviews

I bought a copy of this great audio collection last weekend! I am a big comic book fan, and enjoy listening to and reading the classics. This is a must have for any comic book history collector! The quality is superior, and the great plots have you listening for hours on end. I enjoy having the tapes run in the background while I do my work in the office. I almost feel like I am reporter at the Daily Planet!

You couldn't have stories that are more fun to listen to. These are why Superman is the premier Superhero today.

Thanks
