Round Walled Graveyards And Churches In Iceland, Greenland And Possibly In Rhode Island.: Were There Round Walled Graveyards And Churches In Rhode Island Like In Iceland And Greenland.

Synopsis

It has been argued now for almost 200 years that Icelanders had lived longer than thought on the North East coast of America. Rhode Island shows the most of similar ruins to Iceland. The latest find that could indicate that Icelanders were present in RI is a possible Round walled graveyard and church. Those kind are found both in Iceland, Greenland. With the Narragansett rune stone among other artefacts it is not impossible that Rhode Island was Icelandic colony at some time between 10th and 14th century.
